## GCSE BIOLOGY

## Foundation Tier Paper 2F

## Friday 7 June 2019 <br> Afternoon <br> Time allowed: 1 hour 45 minutes

## Materials

For this paper you must have:

- a ruler
- a scientific calculator.

## Instructions

- Use black ink or black ball-point pen.
- Fill in the boxes at the top of this page.
- Answer all questions in the spaces provided.
- Do all rough work in this book. Cross through any work you do not want to be marked.
- In all calculations, show clearly how you work out your answer.

## Information

- The maximum mark for this paper is 100.
- The marks for questions are shown in brackets.
- You are expected to use a calculator where appropriate.

Two students investigated the effect of drinking coffee on reaction time.
This is the method used.

1. Student $\mathbf{A}$ holds a metre rule just above student $\mathbf{B}$ 's hand, as shown in Figure 1.
2. Student $\mathbf{A}$ lets go of the metre rule.
3. Student B catches the metre rule as quickly as possible.
4. Student $\mathbf{A}$ writes down the reading from the scale on the metre rule.
5. Students $\mathbf{A}$ and $\mathbf{B}$ repeat steps 1-4 another four times.
6. Student B then drinks a cup of coffee.
7. After 15 minutes, students $\mathbf{A}$ and $\mathbf{B}$ repeat steps $1-5$.
